

The First On-Demand, Retail Search Engine

What is Jicco?

Jicco furnishes business professionals with “instant answers to pressing retail questions.” The first platform of its kind, Jicco combines Field Agent’s efficient mobile crowdsourcing system with a simple search engine interface to create the world’s fastest way to get real answers from the field.

“

We regard Field Agent to be a game changer in the industry as [they] introduced and implemented the crowdsourcing platform for retail. We are very intrigued at the next evolution of how Field Agent will bring retail to our fingertips in real time through the Jicco tool...we hope to gain a competitive advantage by having access to information and insights faster and more efficiently than our competition, which will enable us to solve problems earlier and more soundly.

”
